MODERN
METAL
FURNITURE

- Lloyd Square Tubular Steel Furniture has a distinctive, clean, modern design, combined with a serviceability that withstands the wear and tear of commercial and institutional use to a high degree of satisfaction.
- The unusually strong square tubular steel frames are finished in lustrous satin chrome — an operation that involves considerable time and skill to produce, but the resulting finish is one that is surprisingly warm and appealing. Satin chrome adapts itself nicely to modern styling as exemplified in the Lloyd Square Tubular Steel Furniture group. The frames are also available with a high-baked enamel finish in a choice of colors — see price list.
- Highly important too is the “wall-saver” construction incorporated in all seating pieces in this group. Because they are so designed, the backs of the chairs and settees do not come in contact with the wall, thereby preventing damage to costly wall surfaces.

SQUARE TUBULAR STEEL FURNITURE

Pages 1 to 13

- Standard equipment on all Lloyd Square Tubular Steel Furniture pieces are self-aligning, rubber-cushioned metal floor glides. These high quality glides allow the furniture to be moved around when necessary, with satisfying silence and surprising ease.
- Attention is called to the sectional seating pieces shown on pages 6 to 9. The wonderful flexibility of these sectional pieces makes it possible to utilize practically any space to the fullest possible use, as well as the satisfaction of re-arranging the furniture when the need arises.

- All table top surfaces are of easy-to-clean, hard-to-damage plastic. The plastic is not affected by alcohol, hot water, food stains, and is highly resistant to cracking, chipping or marring under normal use. A range of patterns and colors is available to co-ordinate with upholstery selections and interior decorating schemes. See price list for top selection.
- Upholstery covers come in readily cleaned, hard wearing plastics or attractive decorator selected Nylon soft fabrics that are the ultimate in wearability and luxurious eye appeal. Covers are neatly and expertly tailored for fine, quality appearance. See price list for available covers.

MODERN
METAL
FURNITURE

C-7300 ARM CHAIR — Satin Chrome

A big, roomy lounge chair with seat and back cushions that are both reversible, and interchangeable with settees S-7301 and SD-7302. Cushions have "custom-comfort" coil spring construction. Black enamel hardwood arm rests.

SPECIFICATIONS: Seat cushion $22\frac{1}{2}$ " x $24\frac{1}{2}$ ", back cushion $22\frac{1}{2}$ " x $22\frac{1}{2}$ ". Overall size; width 26", depth $34\frac{1}{2}$ ", height 35".

C-7400 ARM CHAIR — Enamel Finish — otherwise same as above.

C-7316 HIGH BACK CHAIR — Satin Chrome

Same basic design as C-7300 chair at left, except that the back cushion is 4" higher for extra support and added comfort, making this chair especially suited for hospital use. Self-aligning, rubber-cushioned metal floor glides for moving about with ease and silence.

SPECIFICATIONS: Seat cushion $22\frac{1}{2}$ " x $24\frac{1}{2}$ ", back cushion $22\frac{1}{2}$ " x $26\frac{1}{2}$ ". Overall size; width 26", depth $34\frac{1}{2}$ ", height 39".

C-7416 CHAIR — Enamel Finish — otherwise same as above.

Lloyd

S-7301 SETTEE — Satin Chrome

MODERN
METAL
FURNITURE

A two passenger settee to match with chairs C-7300 and C-7316, and settee-davenport SD-7302. Fully reversible, and interchangeable cushions, with "custom-comfort" coil spring construction. Black enamel hardwood arm rests. All pieces in this loose cushion group have self-aligning rubber cushioned floor glides.

SPECIFICATIONS: Seat cushions each $22\frac{1}{2}$ " x $24\frac{1}{2}$ ", back cushions each $22\frac{1}{2}$ " x $22\frac{1}{2}$ ". Overall size; width 49", depth $34\frac{1}{2}$ ", height 35".

S-7401 SETTEE — Enamel Finish — otherwise same as above.

SD-7302 SETTEE-DAVENPORT — Satin Chrome

Luxurious comfort for three in this settee-davenport that co-ordinates with the loose cushion seating pieces shown on the preceding pages. Center leg support at front and back. Coil spring construction in reversible and interchangeable seat and back cushions. Black enamel hardwood arm rests.

SPECIFICATIONS: Seat cushions each $22\frac{1}{2}$ " x $24\frac{1}{2}$ ", back cushions each $22\frac{1}{2}$ " x $22\frac{1}{2}$ ". Overall size; width $71\frac{1}{2}$ ", depth $34\frac{1}{2}$ ", height 35".

SD-7402 SETTEE-DAVENPORT — Enamel Finish — otherwise same as above.

MODERN
METAL
FURNITURE

C-7309 DELUXE ARM CHAIR — Satin Chrome

L-7308 LEFT ARM SECTIONAL — Satin Chrome

Arm on left of person sitting

Wide, full upholstered arms and deep, luxurious spring seat and back give the luxury appeal to this good looking chair. Self-aligning, rubber cushioned floor glides.

SPECIFICATIONS: Seat 22" x 20", back 22" x 21. Overall size; width 27½", depth 31", height 33½".

C-7409 DELUXE ARM CHAIR — Enamel Finish
— otherwise same as above.

The handsome sectional pieces described on this page, along with the arm chair, have full flexibility to make many attractive corner arrangements, as well as straight line groupings. Use these groupings against the wall or as islands in large rooms.

R-7307 RIGHT ARM SECTIONAL — Satin Chrome

Arm on right of person sitting

F-7303 ARMLESS FILLER — Satin Chrome

Same construction as C-7309 at left, except R-7307 and L-7308 have overall width of 25", and F-7303 overall width of 22".

L-7408 LEFT ARM SECTIONAL — Enamel Finish

R-7407 RIGHT ARM SECTIONAL — Enamel Finish

F-7403 ARMLESS FILLER — Enamel Finish

} Otherwise
same as
above.

Lloyd

MODERN
METAL
FURNITURE

C-7306 ARM CHAIR — Satin Chrome

L-7305 LEFT ARM SECTIONAL — Satin Chrome

Arm on left of person sitting

An arm chair that matches the sectional pieces shown at the right. Spring seat and back. Black enamel hardwood arm rests. Self-aligning, rubber cushioned metal floor glides.

SPECIFICATIONS: Seat 22" x 20", back 22" x 21". Overall size; width 24½", depth 31", height 33½".

C-7406 ARM CHAIR — Enamel Finish—otherwise same as above.

Lloyd sectionals make possible the creation of many interesting and practical groupings, and enables one to utilize valuable space to the fullest. Using the basic group illustrated on the opposite page as an example, many alternate arrangements may likewise be made.

R-7304 RIGHT ARM SECTIONAL — Satin Chrome

Arm on right of person sitting

F-7303 ARMLESS FILLER — Satin Chrome

Same construction as C-7306 at left, except R-7304 and L-7305 have overall width of 23½", and F-7303 width of 22".

L-7405 LEFT ARM SECTIONAL — Enamel Finish
R-7404 RIGHT ARM SECTIONAL — Enamel Finish
F-7403 ARMLESS FILLER — Enamel Finish

} Otherwise same as above.

C-7314 ARM CHAIR — Satin Chrome

A handsomely designed arm chair to go with the settee at the right. Spring seat and thick, padded back. Hardwood arm rests with Black enamel finish. Self-aligning, rubber cushioned metal floor glides.

SPECIFICATIONS: Seat 19" x 21½", back 19" x 17". Overall size; width 22½", depth 28", height 31".

C-7414 ARM CHAIR — Enamel Finish — otherwise same as above.

S-7315 SETTEE — Satin Chrome

Two person settee with identical styling and construction as arm chair at left for co-ordinated grouping.

SPECIFICATIONS: Seat 46" x 21½", back 46" x 17". Overall size: width 49½", depth 28", height 31".

S-7415 SETTEE — Enamel Finish — otherwise same as above.

C-7311 SIDE CHAIR — Satin Chrome

A neatly tailored spring seat, and padded "roll-top" back give this chair a distinctive appearance. Makes a fine desk chair as well as going nicely with the restaurant table on page 12. Has "wall-saver" feature. Self-aligning, rubber cushioned chair glides.

SPECIFICATIONS: Seat 17½" x 16". Overall size; width 17½", depth 21½", height 32".

C-7411 SIDE CHAIR — Enamel Finish— otherwise same as above.

C-7312 ARM CHAIR — Satin Chrome

This is a good selection where a somewhat lighter scaled arm chair is required, for use with a desk or table. Comfortable spring seat, Black enameled hardwood arm rests, and self-aligning, rubber cushioned metal chair glides. Incorporates "wall-saver" feature.

SPECIFICATIONS: Seat 19" x 18½". Overall size; width 22", depth 23½", height 32".

C-7412 ARM CHAIR — Enamel Finish— otherwise same as above.

C-7313 SIDE CHAIR — Satin Chrome

Padded seat and thick, shaped padded back. Same "wall-saver" design as incorporated in all Lloyd square tubular steel seating pieces. Especially suitable for use with restaurant table as shown above.

SPECIFICATIONS: Seat 16" x 15". Overall dimensions; width 17", depth 22", height 31".

C-7413 SIDE CHAIR — Enamel Finish — otherwise same as above.

RESTAURANT TABLE

Plastic top surface with satin finished metal banding. Tops come in wide choice of sizes, as noted in listing below. Legs fitted with self-aligning, rubber cushioned floor glides. All tables 29" high. See price list for available colors in tops.

Satin Chrome	Enamel Finish	Top
T-7350	T-7450	30" Diameter, Round
T-7351	T-7451	30" x 30" Square
T-7352	T-7452	36" Diameter, Round
T-7353	T-7453	36" x 36" Square
T-7355	T-7455	24" x 42" Rectangular
T-7356	T-7456	30" x 48" "
T-7357	T-7457	30" x 60" "
T-7358	T-7458	36" x 60" "

Lloyd

MODERN
METAL
FURNITURE

ET-7320 STEP-END TABLE —
Satin Chrome

A step-end table made to go with any of the seating pieces shown on the preceding pages. Plastic top surfaces with satin finished metal banding. Top surface 18" x 15" x 24" high. Lower surface 18" x 30" x 16" high.

ET-7420 STEP-END TABLE — Enamel Finish
— otherwise same as above.

CT-7321 COFFEE TABLE —
Satin Chrome

A generous size coffee table, made to match with the step-end table and corner table on this page. Top 22" x 36" x 16" high.

CT-7421 COFFEE TABLE — Enamel Finish
— otherwise same as above.

See price list for available colors in tops.

CT-7322 CORNER TABLE — Satin Chrome

The proportions of this corner table are correct to make corner groupings using sectional pieces shown on pages 6 to 9. Self-aligning, rubber cushioned metal floor glides on all tables on this page. Top surface 23½" x 23½" x 24" high. Lower surface 30" x 30" x 16" high.

CT-7422 CORNER TABLE — Enamel Finish
— otherwise same as above.

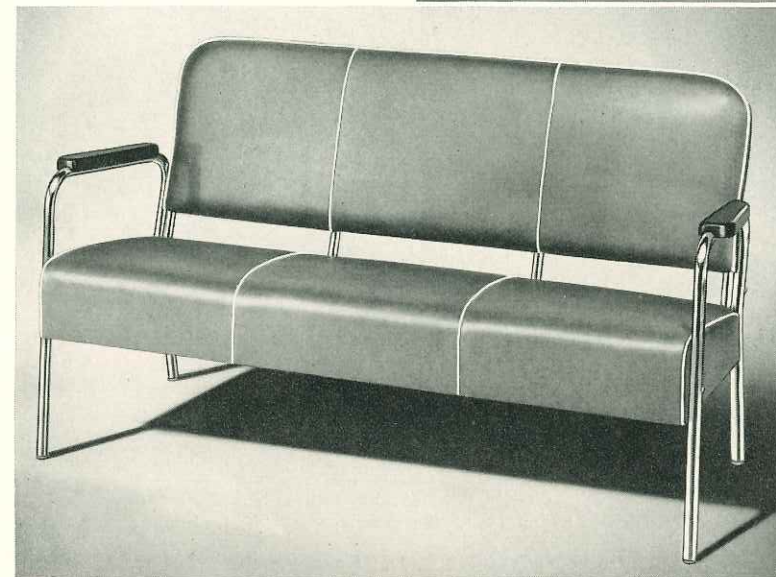

Lloyd

MODERN
METAL
FURNITURE

ROUND TUBULAR STEEL FURNITURE

Pages 14 to 28

- On the following pages we illustrate and describe the Lloyd Round Tubular Steel Furniture which features a mirror-bright, polished chrome finish that is extremely long-wearing and easily cleaned with just a minimum of effort.
- Unusually well-made are the frames of the Lloyd Round Tubular Steel Furniture. Tubular members are joined with strong welds or ample size fastenings to assure good rigidity and long lasting service under severe conditions.
- Good design also sets Lloyd Round Tubular Steel Furniture apart — the lines are simple and modern, and the overall effect is one that is readily adaptable to institutional and business use.
- In this group too, easy-to-clean, hard-to-damage modern plastic upholstery covers are made available to match the durability of the chrome frames. We use welts of solid, extruded plastic, resulting in a welt that will not wear rough or frayed — and always maintains a smooth, new-looking appearance.
- Top surfaces for the occasional and restaurant tables are of laminated plastic to give these tables a surface that is remarkably resistant to the effects of everyday use — in fact the plastic surfaces stay new and fresh looking after long use. See the price list for the list of patterns and colors available in plastic table tops — there are colors for most any decorating scheme.

C-7106 LOUNGE CHAIR — Reversible Cushions

Reversible and removable spring-filled cushions for deep-down comfort are featured in this well-proportioned lounge chair with the distinctive Lloyd runner-base.

SPECIFICATIONS: The seat is a 5" spring-filled reversible box cushion, 22" wide and 25" deep. Back too is spring-filled reversible box cushion 22" wide and 22" high. The chair has overall width of 26½", overall depth of 35" overall height of 35". Main frame of 1" tubular steel, seat and back cushion supports of ¾" tubing, welded to main frame. Arm rests of Black molded plastic.

S-7107 SETTEE — Reversible Cushions

A two-seater to go with the C-7106 chair and the SD-7108 davenport. Reversible and removable spring-filled cushions are long wearing, easy to clean and comfortable. Runner base is easy on linoleum, cork, or composition floors.

SPECIFICATIONS: Two 5" spring-filled reversible seat cushions, each 22" wide and 25" deep. Cushions are 17" high from the floor. Back also of two spring-filled reversible box cushions, each 22" wide and 22" high. Overall width of settee is 48½", overall depth 35" and overall height 35". Frame and arm rests same construction as C-7106 at left.

Attention is called to the fact that all of the cushions on the Settee - davenport on this page, and the Settee and Chair on page 16 have interchangeable cushions. This makes it possible to shift the cushions around from one position to another, or to another chair or settee. This is a big advantage in equalizing wear and ease in replacing.

SD-7108 SETTEE-DAVENPORT — Reversible Cushions

An extremely good-looking davenport, but very rugged and highly practical because of the reversible and removable cushions. Their reversibility give long wear under hard usage, and are quickly removed for easy cleaning. Both seat and back cushions are spring-filled for genuine comfort. There is an even distribution of weight on the floor because of the long runner base, making this piece easy on floor coverings.

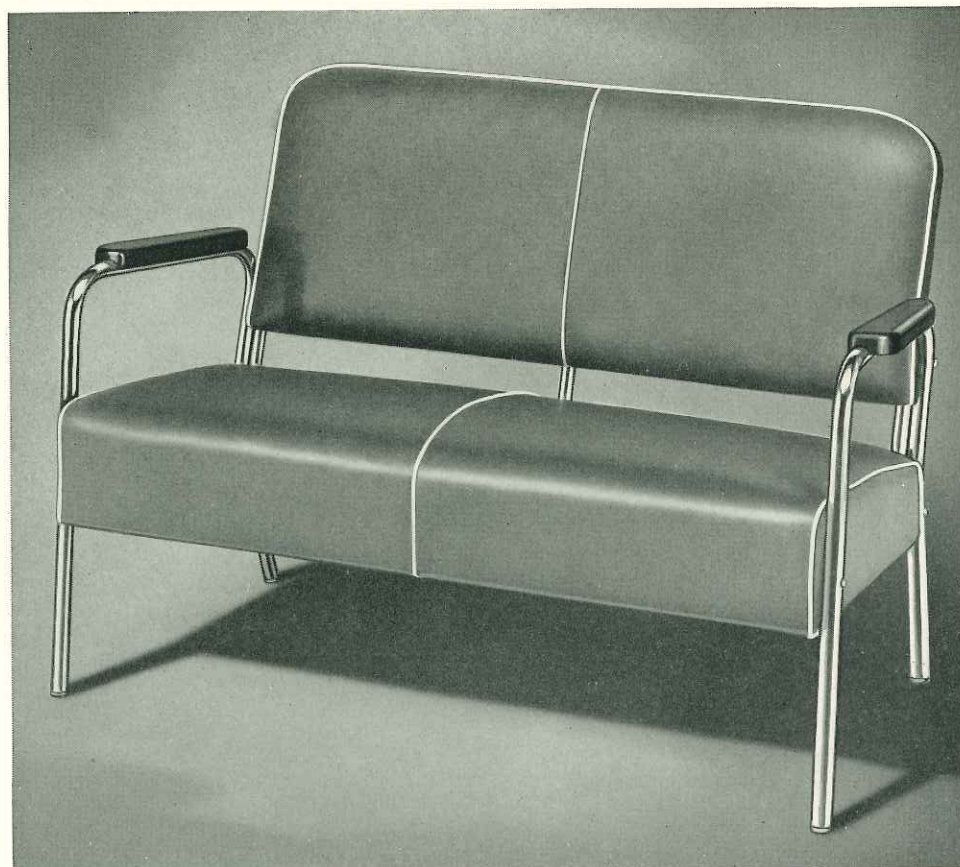

SPECIFICATIONS: The seat is made up of three 5" spring-filled reversible box cushions, each 22" wide, 25" deep. Cushions are 17" high from the floor. Back also of three spring-filled reversible box cushions, each 22" wide and 22" high. Overall width of davenport is 70½", overall depth 35" and overall height 35". Main frame of 1" tubular steel, seat and back cushion supports of ¾" tubing, welded to main frame. Arm rests of Black molded plastic.

C-7100 CHAIR

Satisfying comfort, good looks and exceptional serviceability are combined in this spring seat chair. This is a matching piece to the SD-7102 davenport and the S-7101 settee.

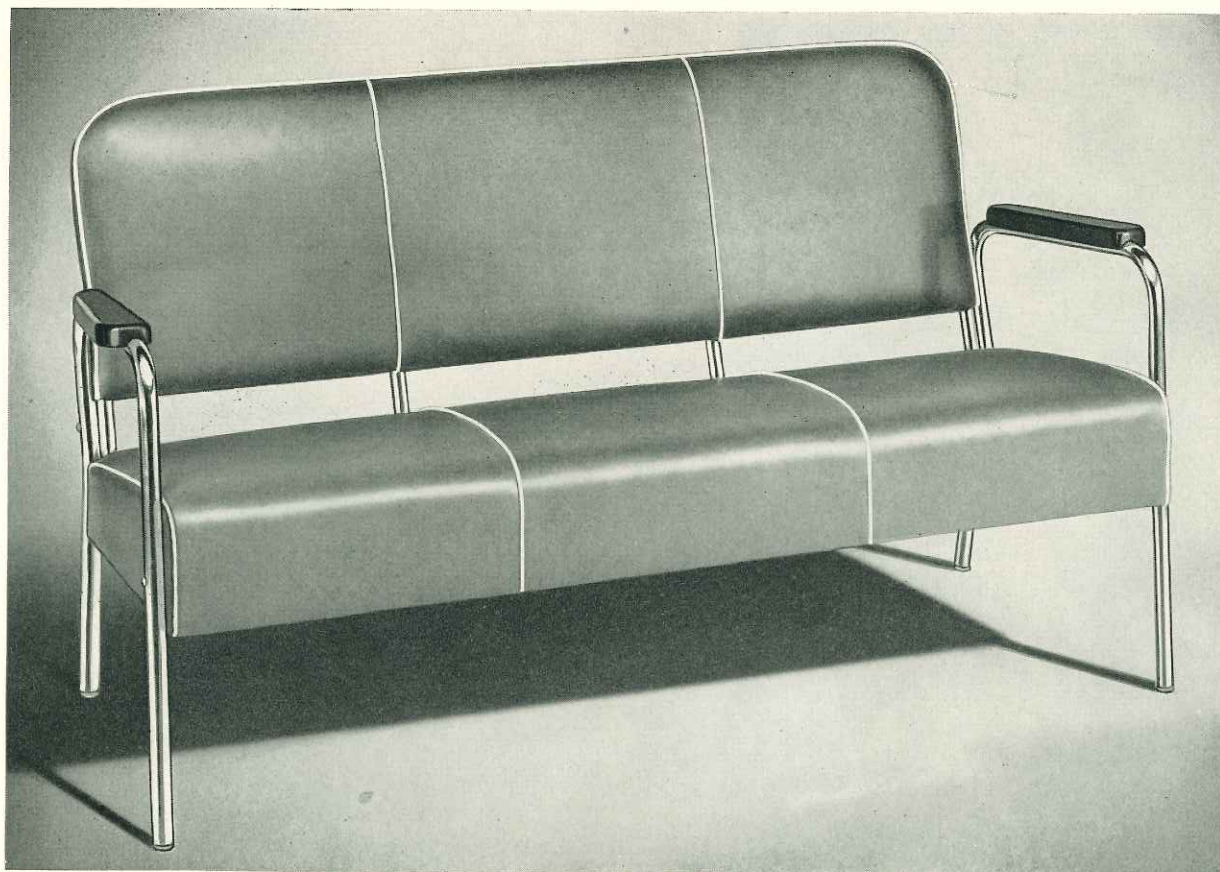

SPECIFICATIONS: The 6" seat with No-Sag springs is 20" wide, 19½" deep and 18" high from the floor. The back is thickly padded and is 17½" wide and 19" high. Overall width is 24", overall depth 26", and overall height 32½". 1" tubular steel legs and arms. Arm rests of Black molded plastic.

S-7101 SETTEE

Designed to match with the SD-7102 settee-davenport and the C-7100 chair, the S-7101 is a fine piece of seating for two persons. The spring seat and the thickly padded back offer real comfort wherever this settee is used.

SPECIFICATIONS: 6" seat with No-Sag springs, 44" wide, 19½" deep and 18" high from the floor. The thick padded back is 43" wide and 19" high. Overall width of this settee is 48", overall depth 26" and overall height 32½". 1" tubular steel legs and arms. Arm rests are Black molded plastic.

SD-7102 SETTEE-DAVENPORT

Seating for three in real comfort is offered in this settee-davenport. A spring seat and heavily padded back rest, combine with a sturdy tubular steel frame to make this a piece of seating that will give years of satisfaction in comfort and serviceability. The C-7100 chair and S-7101 settee are made to match with this davenport.

SPECIFICATIONS: 6" seat with No-Sag springs, 55" wide, 19½" deep and 18" high from the floor. Thick padded back is 53½" wide and 19" high. Overall width is 59", overall depth 26" and overall height 32½". Arm rests of Black molded plastic. 1" tubular steel legs and arms.

Lloyd

MODERN
METAL
FURNITURE

C-7141 SPRING BASE CHAIR — Reversible Cushions

A spring-base and soft spring-filled cushions add up to luxurious comfort for this lounge chair. Cushions are both removable and reversible to give long wear and ease in cleaning. Used extensively in lobbies, trade shows, clubs.

SPECIFICATIONS: Seat is a $4\frac{1}{2}$ " spring-filled reversible cushion 20" wide, 22" deep and is 17" high from the floor. Back is also reversible with cushion measuring 20" wide and 21" high. Base of oil-tempered spring steel. $\frac{3}{4}$ " tubular steel frame. Overall width of chair is $24\frac{1}{2}$ ", overall depth 33" and overall height $36\frac{1}{2}$ ". Arm rests of hardwood, finished in Black lacquer.

C-7138 PULL-UP CHAIR

Because of its unusual comfort, practical utility and moderate cost, this chair suggests many uses in the commercial field. The strong, rugged, well-braced frame will give many years of hard service.

SPECIFICATIONS: Seat has No-Sag springs, measures 18" wide and $17\frac{1}{2}$ " deep, and is $17\frac{1}{2}$ " high from the floor. Back is contoured and softly padded. Frame of 1" tubular steel, with $\frac{5}{8}$ " tubular steel back braces. Overall width 20", overall depth $22\frac{1}{2}$ " and overall height 32".

C-7130 SIDE CHAIR

A very moderately priced side chair that is substantially made and adequately cushioned for many uses.

C-7143 SIDE CHAIR

Features of this side chair are the comfortable rubber cushioned box seat and the attractive kidney-shaped padded back, with plain or paneled upholstery cover.

C-7133 SIDE CHAIR

Designed and constructed to meet the demands of commercial and institutional use. The tubular frame around the top of the back makes this an exceptionally strong chair.

C-7142 SIDE CHAIR

Especially suitable for industrial and institutional type cafeterias, boys clubs, work rooms — wherever hard use is the rule. The solid hardwood shaped seat and back and heavy chrome-plated frame give it the needed long-wearing qualities.

SPECIFICATIONS: Padded seat is 15½" x 15½" and 17½" high from the floor. Curved, padded back. Frame 1" tubular steel. Floor glides of non-marring plastic. Overall height 31".

SPECIFICATIONS: Box seat is 15½" x 15½" and 17½" high from the floor. Rubber seat cushioning. Floor glides of non-marring plastic. Frame of 1" tubular steel. Overall height 33".

SPECIFICATIONS: Padded seat is 16½" x 15½", and 18" high from the floor. Choice of color combinations for paneled, padded back. Plain back also available. Frame of 1" tubular steel. Floor glides of plastic. Overall height 32¾".

SPECIFICATIONS: Seat is saddle-shaped, of solid hardwood, 14½" wide by 14" deep. Shaped back of solid hardwood. Finish on seat and back in either No. 42 Dark, or No. 44 Light (ask for samples). Frame of 1" tubular steel, with floor glides of plastic. Overall height 30".

C-7135 STACKING CHAIR

Stacks for storage as the small illustration shows. Space saving feature makes it ideal for use in convention halls, lodges and recreation centers — wherever storage space is at a premium. The seat has spring construction for long hours of comfort.

Lloyd

MODERN
METAL
FURNITURE

RS-7151 REVOLVING SEAT BAR STOOL

A generous size seat and wide spread to base makes this a highly desirable stool where comfort and stability must be considered. Extremely substantial construction.

SPECIFICATIONS: Thick cushion seat is 18" wide by 18½" deep and is 17" high from the floor. Seat has No-Sag spring construction. Padded back is 17" high from seat to top of back. Two-piece frame of 1" tubular steel is securely joined together with ample size bolts. Overall space occupied by chair is 20½" wide, 29" deep and 31" high. Overall height of two stacked chairs is 35½", three chairs 40", and four chairs 44½", or 4½" additional for each chair added to stack.

SPECIFICATIONS: Seat is 15" in diameter and has thick filling of rubber for soft cushioning effect. Covered with plastic and with white extruded plastic welt and tubular chrome trim around bottom of seat. ⅝" revolving shaft. Legs of 1" tubular steel. Ring of ¾" tubular steel is welded to legs. Span of legs at floor is 20½". Overall height of stool 30".

RS-7150 REVOLVING SEAT BAR STOOL

Good strong construction features this conventional type bar stool. Rubber cushioned seat for extra comfort. Plastic covered for easy cleaning.

SPECIFICATIONS: Seat is 13½" in diameter and has rubber cushioning. Covered with plastic and trimmed with white extruded welt. 5/8" revolving shaft. Legs of 1" tubular steel. Ring of ¾" tubular steel is welded to legs. Span of legs at floor is 19". Overall height of stool is 30".

Illustrating multiple use of C-7145 Chair

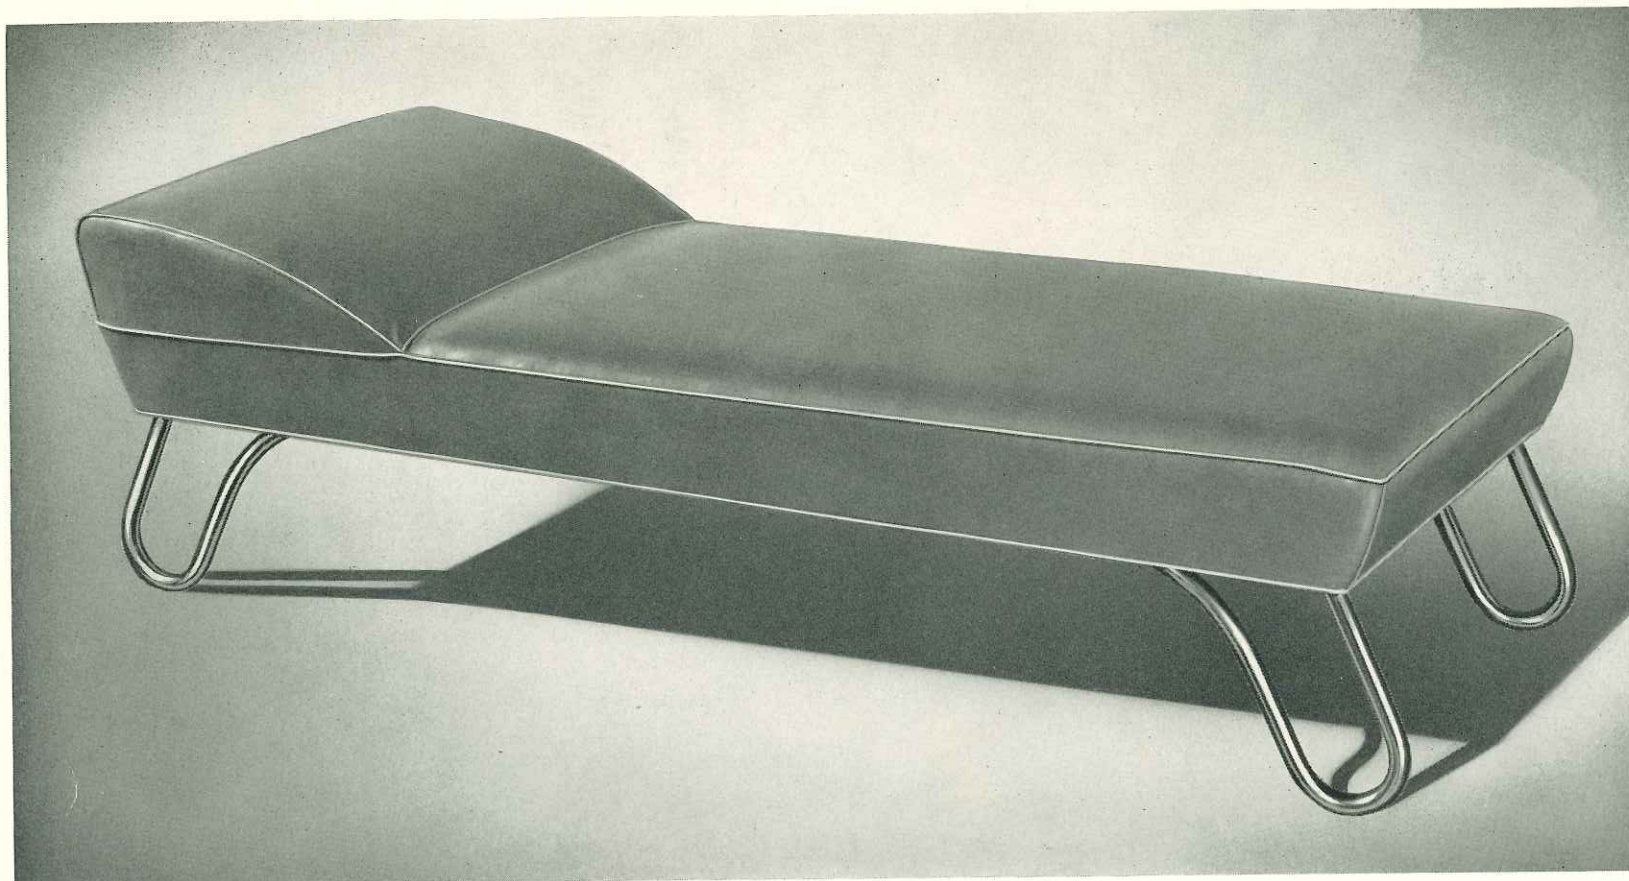

C-7145 GANG CHAIR

Designed especially to meet the needs of using chairs in gangs of three, five and seven, but may be also purchased in single chair units for use as a pull-up chair. Very smart in design and strongly constructed.

SPECIFICATIONS: Spring seat is 18" x 18½" x 18" high from floor. Padded back is 17½" x 13". Frame of 1" tubular steel, polished chrome finish. Black molded plastic arm rests. Self-aligning, rubber-cushioned metal floor glides. Overall sizes: single chair; width 20¾", depth 25½", height 31". When set up in gangs, each chair unit measures 19" from center to center.

Spring seat for extra comfort, with self-aligning, rubber-cushioned metal floor glides as a plus feature. "Wall-Saver" designed frame to protect walls from damage.

OC-7155 COUCH

Here is a strong durable couch especially made up for first aid rooms, employees rest rooms and professional offices. The frame is of substantial box construction, while the upholstery covering of tough plastic will give long wear and is easy to clean.

SPECIFICATIONS: Body cushion is 5½" deep and has built-in head rest. Both body cushion and head rest have "No-Sag" spring construction for restful comfort. Legs are of 1" tubular steel and secured to hardwood frame with heavy fastenings. Overall length 74", width 26". Height of headrest from floor is 22", and height of body cushion from floor is 17".

Lloyd

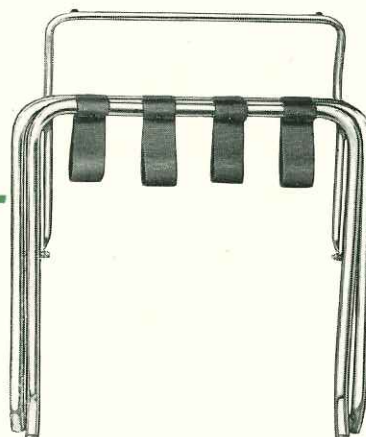

MODERN
METAL
FURNITURE

LR-7158 LUGGAGE RACK

Here is an exceptionally well-constructed luggage rack for hotels, motels, resort and clubs. An ample height wall guard at the back protects walls from damage by the luggage. Wall guard also has protective rubber bumpers. Folds flat as shown in illustration at the right.

SPECIFICATIONS: Main frame of 1" tubular steel; wall guard of $\frac{5}{8}$ " tubing. Four Black woven Saran plastic straps, each $1\frac{1}{8}$ " wide, allow rack to spread to $18\frac{1}{2}$ " in the clear from the front rail to wall guard. When in use, height to level of straps is $18\frac{1}{2}$ ". Overall height 24". Overall width 24", and overall depth of 19". Soft rubber bumpers on back wall guard. Plastic floor glides.

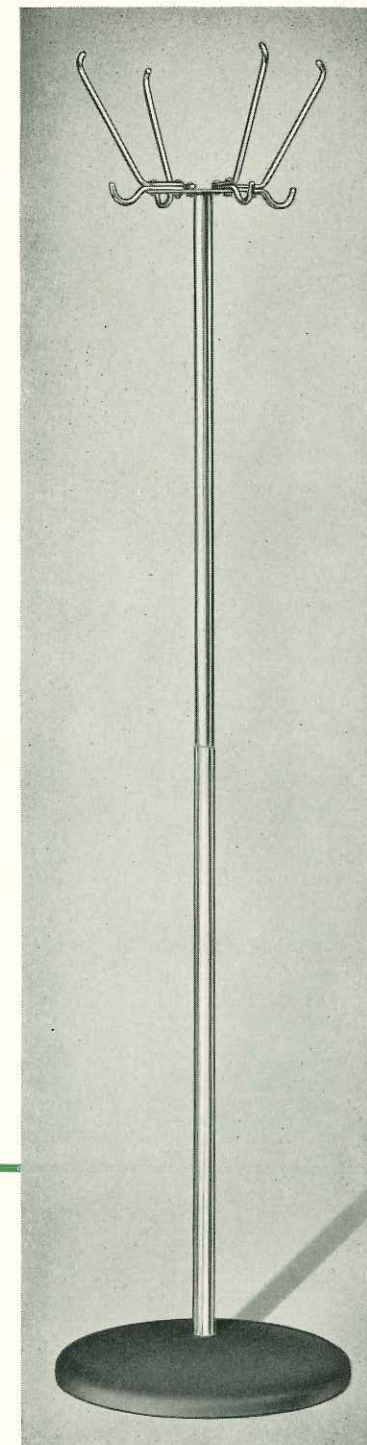

CU-7159 COSTUMER — 4 Hooks

CU-7160 COSTUMER — 8 Hooks

Both costumers listed are similiar in design and construction except that one has 4 sets of hooks for hats and coats, and the other has 8 sets of hooks. A heavy weighted base provides more than ample stability, and the hooks are sturdy, and correctly curved and smoothly finished so as not to snag hats or coats.

SPECIFICATIONS: Lower half of main upright of $1\frac{1}{4}$ " tubular steel, upper half of $1\frac{1}{8}$ " tubular steel. Circular weighted base of cast iron, 16" diameter, finished in Black crackle finish. Overall height 72".

CU-7159 4 Hooks

SINGLE LEG TAVERN AND RESTAURANT TABLES

Top has plastic surface with 1 1/4" chrome-steel edge banding. Legs are of 1 1/4" round chrome-plated tubular steel, equipped with plated metal floor glides.

Shipped K.D., 2 per carton.

T-7230 — Round Top 30" Diameter

T-7231 — Square Top 30" x 30"

T-7232 — Round Top 36" Diameter

T-7238 — Rect. Top 36" x 60"

Lloyd

MODERN
METAL
FURNITURE

The square or rectangular top tables may be butted flush against each other for multiple use when large table surfaces are required.

T-7215 Square Top, 36" x 36"

SPECIFICATION: Plastic top has chrome steel banding. Pedestal is 4" diameter chrome-plated tubular steel, with heavy weighted cast iron base, in Black crackle baked enamel finish. See price list for colors of tops.

PEDESTAL STYLE RESTAURANT AND TAVERN TABLES

Lloyd pedestal tables are remarkably strong and solid, and offer unobstructed leg room all around. The wear-defying plastic top is unaffected by alcohol, fruit stains or boiling water, and is easily cleaned with just soap and water. Base has long-wearing, scuff-resistant finish.

T-7220 Rect. Top, 36" x 60", Double Pedestal

- T-7211 — Square Top, 24" x 24" single pedestal
- T-7212 — Round Top, 30" dia., single pedestal
- T-7213 — Square Top, 30" x 30" single pedestal
- T-7214 — Round Top, 36" dia., single pedestal
- T-7215 — Square Top, 36" x 36" single pedestal
- T-7216 — Rect. Top, 24" x 36" single pedestal
- T-7217 — Rect. Top, 24" x 42" single pedestal

- T-7218 — Rect. Top, 30" x 48" double pedestal
- T-7219 — Rect. Top, 30" x 60" double pedestal
- T-7220 — Rect. Top, 36" x 60" double pedestal

NOTE: Self-leveling floor glides for pedestal bases available at extra cost. These special glides compensate for any unevenness of floor up to $\frac{3}{8}$ ", and allow table to stand steady without wobbling.

T-7163 COCKTAIL AND COFFEE TABLE — Plastic Top

This cocktail table mixes in perfectly with the various Lloyd seating pieces shown on pages 14 to 24. The plastic top, of course, will easily take the abuse that a table of this kind is subject to.

SPECIFICATIONS: Plastic laminate top comes with chrome steel band around edge. Top measures 18" x 34" and is 17" high. Legs of 1" tubular steel. Plastic floor glides.

T-7164 END TABLE — Plastic Top and Shelf

Designed to match the T-7163 cocktail table, this two-level table is extremely strong and durable. Both top surface and lower shelf are of plastic laminate for the utmost in serviceability.

SPECIFICATIONS: Plastic laminate top and shelf surfaces, with chrome steel banding around the edges. Top measures 16" x 16" and is 21" high from the floor. Lower shelf is 14" x 28". Legs of 1" tubular steel, with top shelf brackets of $\frac{3}{4}$ " tubular steel. Plastic floor glides.

C-9076 UTILITY CHAIR (Design Patent Pending)

Here is a moderately priced, strongly constructed chair that suggests many uses. It has a generous size padded contour seat, and the back is likewise comfortably padded and strongly braced. Tubular steel frame, with "wall-saver" design, is finished in Black baked enamel only. Welded joints, gold colored leg ferrules and plastic floor glides. Seat measures 19" x 17½", and is 16½" high from floor. Overall height 30½".

C-9077 UTILITY CHAIR

A chair similar to the one at the left except has nicely designed tubular arms and a larger back. The padded seat is 19" x 17½". Large padded shaped back is 16" high from seat. The tubular steel frame, with welded joints and "wall-saver" design, is finished in Black baked enamel only. Gold colored leg ferrules and plastic floor glides. Overall height is 30½".
